Gents – The folder below should take you to all the submittals to the WDNR over the past 2-3 weeks. This includes the two site investigation reports, the remedial action plan for the DPW site, and the material management plan for the entire project.

2022Submittals

We had a brief discussion with Jeff A. yesterday about some of the findings at the DPW site, clarifying some of the questions he had, and it seemed to go well – at least he was happy with the responses and didn't have more questions by the time our conversation was done, so we are hopeful that is a good sign.

I'm working on getting bids for the landfill tipping fees. We will likely need to have 3-4 different waste streams profiled out here so that is giving us some trouble but we are working through it.

Finally, the pile of dirt from the Mandt park side of the Riverwalk that is stockpiled on the Millfab property has been coordinated with the Stoughton DPW folks, the trucking company, and the landfill and will be taken care of on Monday, July 11.

Let me know if you have any questions or need anything further. Thanks again and we'll be in touch!!

Sincerely,

TRUE NORTH CONSULTANTS
