Subject: RE: Badger Books questions

Good questions!
1. Our current Badger Books have an integrated printer in the monitor stand. We have sitting near Debbie's desk. That is no longer an option, we can only get a stand alone thermal printer. The printer issues the Voter number in order at check in for the Voter to get a ballot.

2. Yes, we are required to print one copy of the poll book as back up in case of power failure.

Can I prepare anything else for everyone?

Subject: Badger Books questions

Candee,

Two questions were raised last night by the CIP Committee regarding Badger Books.

1. What is printed with the thermal printer?
2. Is a hard copy of the poll books printed as a backup in case of loss of data?

Thanks,

Dave
