Subject: Finance Committee Agenda Item – Yahara River Pedestrian Bridge and River Walk Project – Contract 6-2021

This project includes construction of a pedestrian bridge from the former Millfab site to Mandt Park along with a River Walk and river bank restoration along the north side of the River. We received five bids for this project. The low bidder is Janke General Contractors, Inc. with a base bid of $1,135,690.90. Bid alternatives were received for six items and the lower bidder remains lowest for all possible scenarios of alternative bid selections.

The current total combined construction budget for this project is $1,253,503. The budget includes three successful grant awards totaling $803,439. Outside of the construction contract, the City anticipates $22,000 worth of owner direct purchases (benches, signage, trash receptacles, and trees). We recommend carrying a 10% contingency during construction. See the attached worksheet for a breakdown of the bids, alternatives and budget.

The bid alternatives would either not be feasible or cost effective to be completed at a later time. Therefore, we recommend proceeding with all six bid alternatives assuming additional funds can be allocated to this project. Moving forward with the low base bid, all six alternatives, the owner direct purchases and carrying a 10% contingency creates budget shortfall of $222,115

We recommend entering into a contract with Janke General Contractors, Inc. for the base bid amount and all six bid alternatives for a contract amount $1,319,262, carrying a 10% contingency, and allocating $222,115 additional to this project.
