Subject: Tax Season update

We are finally on the home stretch of tax season!!
Some numbers that I thought I would share:

We processed exactly 5,000 individual tax payments.
We collected $21,809,925.38 in taxes.
We collected and processed refunds for $38,168.06 overpayments.
We processed 6 Lottery Credits.
The January export was completed January 2nd and the February export will be collected right after this email, all on schedule and on time.

Taxpayers can drop off their payments here until Tuesday, February 7th.
Those I will process to go to the County for them to accept payment.

On Wednesday, February 8th we are no longer accepting payments from anyone walking in. They are to be instructed to mail to the County themselves.
I will work with Martin to wrap our drop box in a black garbage bag for the season something similar to what the Clerk's department did with their ballot drop box.
I do not want our box removed, wrapping it so it cannot be accessed will be just fine. I do not want to risk damage to the box while in storage or the removing/ reinstalling of it and the concrete pad. Wrapping will be less time consuming and less wear and tear on the item and I can do it myself.

Thanks for helping to make 2022 another successful tax collection season!
Now on to audit and finishing up closing out 2022 and moving into 2023.

Thanks again☺
