Hazardous Waste Disposal —Visit dnr.wisconsin.gov and type in "household hazardous waste" in the search bar.

Frequently Asked Questions:

How do I dispose of Paint? Latex paint should be dried and thrown in the trash. Oil based paints are treated as household hazardous waste . Go to dnr.wisconsin.gov for more on disposal options .

Why can't I set out root balls? Root balls contain dirt, rocks and other material that may damage the equipment that we use to shred the brush. Small root balls can be placed in your trash and larger root balls maybe taken to the landfill for disposal.

Why can't you come back and get my brush if I put it out late? City staff have many tasks to perform. We don't have the time or personnel to keep coming back for those that choose to not put there brush out on the collection date. Furthermore, if we did it for one resident, we'd have to do it for all.

Where can I take my brush, leaves and other yard waste material in between collections? You can bring that material to the yard waste and compost facility located at 1101 Collins Rd. There is an annual permit fee of $20 to use the site. See the Public Works website for hours of operation.
