Subject: Food Cart Ordinance

Today City staff met with our attorneys regarding the food cart ordinance. In our conversation we developed a plan to amend the zoning code to allow for conditional use of food carts on private property that is not zoned residential and that is not within the Central Business District.

Food carts would, however, be allowed in the Central Business District if they were a part of a license special event.

I will keep the committee updated on the status of this project. The first is to amend the zoning code. The zoning code amendments will have to go through the Plan Commission and Council for approval. After the zoning code is approved, the licensing/administrative piece will come through CACP for approval.

Please let me know if you have any questions.
