Re: August Forestry Activities Report

- I visited McKay Nursery to select trees for the fall planting program. At this time I have ordered 116 trees, more may be purchased based on need.
- Work began in Amundson Park to remove ash trees. Jim's Tree Service will complete this work sometime in September.
- I assisted with the brush collection program in August
- The Forestry intern completed her summer term with the city in August. She was very helpful with all aspects of the Forestry program.
- I met with the DNR and agreed to take part in a research project looking at tree root/sidewalk conflicts. The study will look at different treatment methods to address roots which are affecting hardscape infrastructure.
- Multiple private ash trees were condemned in July and August.

Respectfully Submitted,

John Kemppainen, C.A.
City Forester
