6. **Latest management report, financials, and renovation update** – Olson indicated that the financials have forwarded to the Rural Development Association. Broihahn gave a brief overview of the owner's report provided with the packet. McGlynn requested that the Complaint Log document filled out by residents indicate multiple people that would receive the complaint for possible action.
7. **Discussion and possible action regarding fire system update** -- We are still waiting for the work signed for last year. The delays have been attributed to supply chain issues but the work is anticipated to be started in June 2022. McGlynn will contact Mark Miller at the Stoughton Fire Department to help move the process forward.
8. **Grant and Low-Income Housing Tax Credit (LIHTC) updates** – Comments from Paul Schechter with Sunnyside Development were included in the owner's report under "funding update." Swadley indicated that the recent application to WHEDA for LIHTC credits for the 51 West Development project was not granted. It appears that WHEDA may be holding funds in reserve for construction cost increases as so many were delayed.
