1. Call to order. Hubing called the meeting to order at 6:30 pm.

Motion by **Pigarelli** to approve the minutes as presented, 2nd by **Hedstrom**. Motion carried unanimously.

3. Consider a Certificate of Appropriateness for window replacements at 100 E. Main Street.

Phillip Knutson provided details of the window replacements. The Commission discussed the replacement of the taller wood window and questioned if the existing wood window could be repaired. Phillip Knutson said he was told that the window is dry rotted and cannot be repaired so an aluminum window is proposed similar to other windows on the building. The Commissioners would rather see the window repaired but if it needs to be replaced then the replacement should be wood or wood clad with aluminum or vinyl.

Motion by **Hedstrom** to approve the Certificate of Appropriateness for two of the windows and approve the taller wood window under the following conditions:

- The window is repaired using like materials;
- The window is replaced with a similar wood window;
- If the window is proposed to be replaced with any other material, more information is necessary for the approval, however wood or wood clad is recommended.

2nd by **Cook**. Motion carried 4-0

4. Consider a Certificate of Appropriateness for awning replacement at 134 E. Main Street.

Motion by **Hedstrom** to approve the Certificate of Appropriateness as presented, 2nd by **Pigarelli**. Motion carried 4-0
