Re: 2011 Potential WDOT work

Dear Neighbor:

We have begun to submit bids for WDOT highway projects to be constructed in the 2011 construction season.

It has been brought to my attention that an asphalt paving project on IH90, between Hwy 106 and CTH B in Dane County will be out to bid in the next 60 days. This project will require that the paving be done at night.

Our Stoughton site would be our basis for submitting our bid. The job would require working 5-6 nights per week, for 30-40 nights. Most of the trucks would come and go to the east on US 51.

We will not allow the trucks to use "jake" brakes and will route trucks forward to limit the back-up alarms. Our plant loaders will use new style back-up alarms which do not "carry" as the older style do. The plant and generators will be of a newer "residential" style which limit noise generation.

We will meet with the Town of Dunkirk and the City of Stoughton for their permission. The request to work nights will be job specific.

I will write to let you know of the bid results and to schedule our spring neighbor's meeting in about 60 days.

Sincerely,

William G. Buglass
Payne & Dolan, Inc.
