Summary of Policy for Unassigned Fund Balance

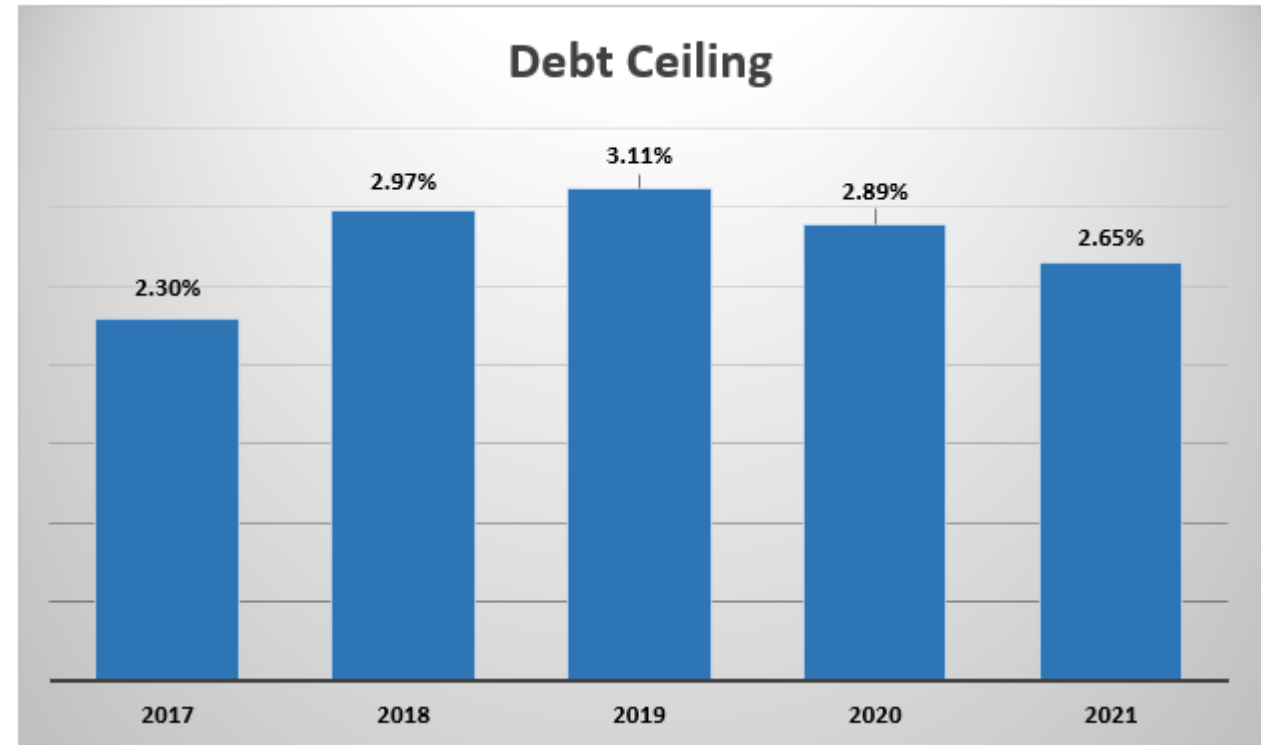

- Policy is to maintain General Fund Unassigned Fund Balance between 20% and 25% of the subsequent year's operating expenditure budget
- Recent compliance history
 - 2020: 29.0% (\$4,049,750 total; \$564,172 excess)
 - 2019: 27.9% (\$3,887,629 total; \$406,606 excess)
 - 2018: 27.5% (\$3,599,051 total; \$331,804 excess)
 - 2017: 26.6% (\$3,411,601 total; \$205,040 excess)
- As a result of maintaining a conservative approach to the 2021 budget due to concerns over the pandemic and the Federal Funding provided to the Opera House, we anticipate this upwards trend to continue

Summary of Policy for Unassigned Fund Balance (cont.)

- The 2022 budget includes use of Unassigned Fund Balance to fund the planned 2022 employee retirements
- The City does have a relatively high debt burden and Moody's would look unfavorably if we decreased the Unassigned Fund Balance below the 25% threshold
- The City's policy is to limit the use of Unassigned Fund Balance to one-time expenditures

Debt Service Summary

- City debt limit policy
 - Policy: Remain below 4% of the City equalized property value
 - The City will be at 2.65% at the end of 2021
- Percentage of levy
 - Policy: Remain below 40% of total levy
 - Forecasted 2021 levy is 36%

2022 MAYOR'S ANNUAL BUDGET DOCUMENT

2022 BUDGET MESSAGE FROM THE FINANCE DEPARTMENT

After months of planning and consultation with city staff and council members, the Mayor has submitted the budget for calendar year 2022 for consideration and approval. We believe this budget achieves many of the city's objectives, with a nominal tax impact to our residents.

Although the impacts of the COVID-19 health pandemic continue to linger, thanks to smart planning during previous years we have been able to mitigate many of those impacts, keep taxes low for our residents, and maintain healthy fund balances. The city also experienced continued growth in both residential and commercial development resulting in a net new construction increase of 1.32%, or \$16.7 million.

Here are a few highlights from the Mayor's Budget:

- Total budgeted general fund operating expenditures are \$11.2 million, excluding debt service. This represents an increase from last year's budget of \$413,000 and is mainly the result of wage increases and increased staffing levels.
- General fund budgeted operating expenditures increased approximately 3.8%. This increase is in excess the city's net new construction increase, and is a testament to the careful planning exhibited by our elected officials and employees as it relates to identifying alternative sources of revenues in lieu of property taxes.
- Garbage and Recycling fees are anticipated to increase by approximately 5.6% or \$10.04 per unit annualized.
- Storm Water fees are anticipated to increase approximately 5.14% or \$3.96 per unit annualized.
- In order to support continued development along the Riverfront, we have earmarked \$170,000 from TID No. 4 to be used to support TID No.'s 5 and 8.
- The City was awarded \$1.4 million in American Rescue Plan funds and continues to have ongoing workshops to identify the most impactful way these funds will be spent.
- There is approximately \$6.2 million committed in 2022 towards capital projects.
 - This budget includes \$3.2 million in road maintenance and street and storm water construction. The largest anticipated road expense will be \$853,000 for the Academy Street West reconstruction project.
 - This budget also includes approximately \$498,000 to replace the Jefferson Street Bridge and an additional \$923,000 towards the Riverfront area improvements.
 - In addition, this budget includes approximately \$365,000 in playground and park upgrades, \$1.2 million in equipment replacement, and \$88,000 in city building maintenance projects.
- The city anticipates funding the aforementioned by issuing approximately \$5.2 million in General Obligation debt.

Despite continued uncertainty brought by the ongoing pandemic and rising prices, we believe our city is well situated to endure any unforeseen challenges, and well positioned to continue delivering the essential services our residents rely upon. With that said, challenges will continue to arise as we work through this difficult time, but rest assured that the Finance Department will continue to diligently monitor the city's financials and maintain an open dialogue with the Finance Committee as on a regular basis. We are grateful for the dedicated work of our city council. Their vision and dedication to the city have greatly aided in our city's progress over these last few years. We are grateful for their unrelenting support and dedication to serving our great residents.

Introduction

The city maintains a number of funds for recording the fiscal transactions and to meet legal accounting requirements. Budgets for all funds of the city, which are listed below, are legally adopted on an annual basis.

Below are general descriptions of the fund-types and a brief description of each fund within each type.

Fund Type: General Fund
Fund Number: 100

Description: The General Fund provides for accounting of general governmental functions related to the city's statutory obligations. Those functions include, public works, fire services, police services, City Council, city administration, finance, insurance and legal.

Fund Type: Debt Service
Fund Number: 300

Description: The Debt Service Fund is used to account for the payment of debt on all general obligation debt. Payments on general obligation debt issued for general government purposes are funded primarily by the property tax levy.

Fund Type: Construction/Capital Projects and Outlay
Fund Number: 400 and 410

Description: Funds for the construction and replacement of city facilities, equipment, infrastructure and other capital assets.

Fund Name: Tax Incremental District No. 4
Fund Number: 204

Description: Tax Incremental Financing District (TID) No. 4 is used to account for all project costs related to Downtown improvements. Beginning in 2021, the future increment from TID No. 4 will be donated to TID No.'s 5 and 8 to assist with continued development along the Riverfront.

Fund Name: Tax Incremental District No. 5
Fund Number: 205

Description: Tax Incremental Financing District (TID) No. 5 is used to account for all project costs related to the Railroad Corridor.

Fund Name: Tax Incremental District No. 6
Fund Number: 206

Description: Tax Incremental Financing District (TID) No. 6 is used to account for all project costs related to the Business Park North Expansion Area. While this TID continues to struggle financially, the city saw great strides in 2020 in terms of land sales, in vertical improvements in 2021, and hopes to see this trend continue into 2022.

Fund Name: Tax Incremental District No. 7
Fund Number: 207

Description: Tax Incremental Financing District (TID) No. 7 is used to account for all project costs related to Kettle Park West (KPW). KPW Phase II was approved by the City Council in 2020 and is planned to add an additional \$66 million in incremental value to this TID.

Fund Name: Tax Incremental District No. 8
Fund Number: 208

Description: Tax Incremental Financing District (TID) No. 8 is used to account for all project costs related to the Riverfront Development Area. The city signed agreements with a developer for Phase I of a development to begin spring of 2022.

Budget Process (General)

The formal budget process begins in May of each year. At that time the budget materials and guidelines are distributed to the various department heads. Informally, aspects of upcoming budgets are discussed throughout the year with the City Council and staff.

The departmental budgets are compiled, clarified and put into a format for the Mayor's review. The Mayor meets with the Finance Director and individual department heads to follow up on questioned items and clarify explanations. When the final review is completed, the proposed budget document is prepared and provided to the Committee of the Whole annual Budget Workshops. All department heads are required to attend the Budget Workshops of the Committee of the Whole. At this time, committee members pose questions and make recommendations and comments regarding the overall budget. The Committee of the Whole then approves the budget to be taken before the City Council. Citizens are also invited to participate in the annual Budget Workshops as well.

CITY OF STOUGHTON 2022 BUDGET
 OVERVIEW OF ANNUAL BUDGET PROCESS, LEGAL AND POLICY
 REQUIREMENTS

The City Council must then conduct a public hearing and take a formal action to approve the final budget and levy at the first City Council meeting in November.

Date (2021)	Major Steps in Budget Preparation
Early May	Finance Director issues departmental request forms for capital budget needs with instructions
Early May	Department heads are issued instructions for compiling budget details for department line items
Mid-June	Department heads submit capital budget requests to Finance Director
Mid-July	Department heads provide Finance Director with initial budget submittals
July-August	CIP Budget Committee meetings are held to finalize the 5-year CIP
September	Meetings are held with Department Heads to finalize requested operating budgets
October	Committee of the Whole Budget Workshops are held
Late October	Budget notice of public hearing sent to local paper
November 9	Public hearing on 2022 proposed budget
November 9	Adoption of the 2022 budget

Budget Monitoring

The budget is monitored throughout the year to ensure city departments remain within budget and complete planned activities. The Finance Committee and City Council receives monthly updates and a full financial report each quarter.

Budget Amendments

Periodically, during an operating year, it becomes necessary to modify the adopted budget. Modifications that affect the total budget on a fund basis are only approved by the action of the City Council. The City Council, under Wisconsin State Statutes Section 65.06, can modify or amend the budget if unappropriated funds are available. Budget appropriations are approved at the function level.

Examples of such budget amendments would include requests for additional or emergency expenditures where reserve balances are available or additional revenues have been received.

Fund Accounting

The accounts of the city are organized into funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, deferred outflows/inflows of resources, net position/fund balance, revenues, and expenditures, or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds are grouped in the annual financial statements into two broad fund categories and five generic fund types as follows:

CITY OF STOUGHTON 2022 BUDGET
OVERVIEW OF ANNUAL BUDGET PROCESS, LEGAL AND POLICY
REQUIREMENTS

Governmental Funds Subject to Financial Planning and Appropriation

General Fund -The General fund is the primary operating fund of the city. It is used to account for and report all financial resources except those required to be accounted for in another fund.

Special Revenue Funds - Special revenue funds are used to account for and report the proceeds of certain specific revenue sources that are legally restricted to expenditures for specified purposes.

Debt Service Funds - Debt service funds are used to account for and report the accumulation of resources for, and the payment of general long-term debt principal, interest, and related costs.

Capital Projects Funds - Capital projects funds are used to account for and report financial resources to be used for the acquisition or construction of major capital facilities other than those financed by proprietary funds.

Other Funds Subject to Financial Planning but not Subject to Appropriation (Enterprise Funds)

Enterprise Funds - Enterprise Funds are used to account for and report operations that are financed and operated in a manner similar to private business enterprises. With these, the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. The city has five (5) Enterprise Funds: Water Utility, Electric Utility, Sewer Utility, EMS and Storm Water.

Basis of Accounting

The modified accrual basis of accounting is followed by the governmental funds and agency funds. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual, i.e., both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The city defines this period to be sixty-five days. Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on long-term debt, claims, judgments, compensated absences, and pension expenditures, which are recorded as a fund liability when expected to be paid with expendable available financial resources.

Property taxes are recorded in the year levied as receivables and deferred inflows of resources. They are recognized as revenues in the succeeding year when services financed by the levy are being provided. In addition to property taxes for the city, taxes are collected for and remitted to the state and county governments as well as the local school district and technical college district. Taxes for all state and local governmental units billed in the current year for the succeeding year are reflected as deferred revenues and due to other taxing units on the accompanying balance sheet. Taxes are levied in December on the assessed value as of the prior January 1.

Intergovernmental aids and grants are recognized as revenues in the period the related expenditures are incurred, if applicable, or when the city is entitled to the aids.

Special assessments are recorded as revenues when collected. Annual installments due in future years are reflected as receivables and deferred inflows of resources.

Revenues susceptible to accrual include property taxes, miscellaneous taxes, public charges for services and interest.

Other general revenues such as fines and forfeitures, inspection fees, recreation fees, and miscellaneous revenues are recognized when received in cash or when measurable and available under the criteria described above.

CITY OF STOUGHTON 2022 BUDGET
OVERVIEW OF ANNUAL BUDGET PROCESS, LEGAL AND POLICY
REQUIREMENTS

Basis of Accounting (cont.)

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

Basis of Budgeting

The city adopts an annual budget for the general, special revenue, debt service and capital project funds that are prepared on the modified accrual basis of accounting and the proprietary funds budgets are prepared on the accrual basis of accounting, which are the same methods as the basis of accounting. The adopted budget indicates the amount that can be expended by each fund based on detailed budget estimates for individual expenditure accounts. Management may make budget modifications within the department level. All budget revisions at the function level must be authorized by the City Council. The Council, under Wisconsin Statutes, can modify or amend the budget if unappropriated funds are available. All supplemental appropriations are financed either by transfers from the contingency section of the general fund budget or by revenues received in excess of the budgeted amounts. All budget amounts lapse at the end of the year to the extent they have not been expended. The level which expenditures may not legally exceed appropriations is at the function level. The basis of budgeting for the city's funds is the same as the basis used for the fund statements in the city's annual financial report.

Long Range Planning (Capital Improvement Program (CIP)) Overview

As part of the annual budget and the long-range planning process, the city also updates a 5-year Capital Improvement Program (CIP).

The Capital Improvement Process is ongoing throughout the year, as the City Council studies and approves various projects. The document preparation is an affirmation of those approvals as well as a projection of potential projects that may be approved within the 5-year period.

Description of Major General Fund Revenues

A description of the major revenue categories and a discussion related to the revenue trend for the major revenue category can be found below.

Category – Taxes – The tax category includes two types of major revenues. These include General Property and Utility Payment in Lieu of Tax.

Property Taxes

It has been the city council's objective to keep tax rate increases to a minimum. The large increase in tax revenue in 2019 and 2020 was due to debt service requirements caused by capital projects in 2018 and prior years. The large increase between the 2021 and 2022 budget amounts is due to amounts levied to TID No.'s 5 and 8 in the previous year, which are not reflected in this chart.

The State of Wisconsin limits increases in property taxes to the greater of 0% or the percentage increase due to new construction (1.32% for 2021) plus increases in debt service requirements. The 2022 budget proposes to increase property taxes of an average homeowner by 0.76%.

In recent years, the city has seen growth that has lagged behind the Dane County average.

Property taxes are calculated by taking net expenditures and comparing to the state imposed levy limit. If the levy is under the limit, the City Council authorizes the amount to be taxed to city property owners based upon a calculated mil rate applied to taxpayer property values. Forecasted amounts are dependent upon net new construction within the city.

Utility Payment In Lieu of Tax

The Utility Payment in Lieu of Tax is tax calculated on utility property within the city limits.

Growth in utility payment in lieu of tax revenue is dependent upon additions to the water and electric utility plant. This revenue does not increase greatly unless significant new plant is added to the city's systems. The city generally budgets conservatively on this line item.

The Utility Payment in Lieu of Tax is calculated by taking the water and electric utility plant within in the city limits as of January 1 of the current year multiplied by the mil rate of the city, school, and technical college.

Category – Intergovernmental Revenues – The major sources of intergovernmental revenues for the city includes state shared revenues and transportation aids.

State Shared Revenue

State shared revenues have increased steadily over the past few years.

The trend for shared revenues is that they remain relatively stable going forward.

Year	Amount	% Change
2018 Actual	\$ 826,359	
2019 Actual	\$ 875,783	5.98%
2020 Actual	\$ 881,283	0.63%
2021 Budget	\$ 890,400	1.03%
2022 Budget	\$ 906,381	1.79%

The city budgets for the amount that the state sends out to be included in the budget during September of the current year. The city will qualify for expenditure restraint in 2022. The non-expenditure restraint portion of state shared revenues is expected to remain stable in the future.

General Transportation Aids

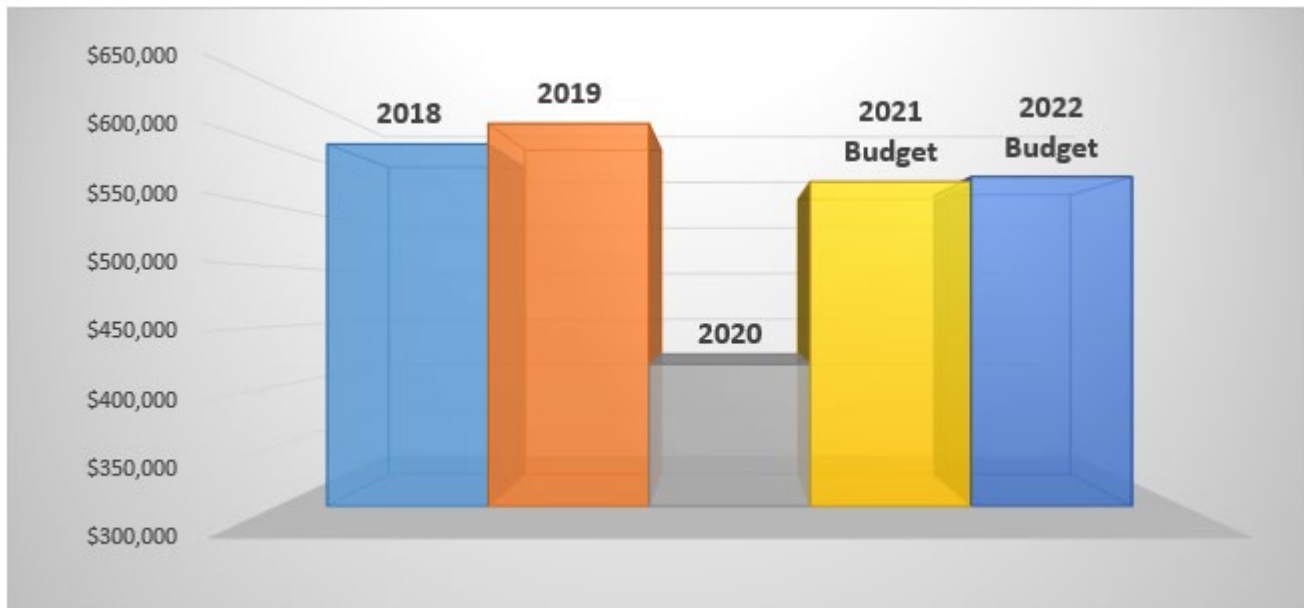

The state awards funds for transportation based upon a formula called the “Share of Costs Calculation.” This uses a six-year average multiplied by a share of cost percentage determined by the state.

Transportation aids are expected to continue their upwards trend in the coming years.

The city budgets for the amount that the state sends out to be included in the budget during September of the current year.

Category – Public Charges for Services – Charges for services within the general governmental funds assists in providing a diversity of revenue sources. Over the years, the city has instituted user fees for services where appropriate. A majority of the user fees for governmental services are collected from fire department fees, cable franchise fees, yard waste fees and recreation fees. *The chart below does not include past activity related to the city’s garbage collection and recycling fees due to the fact it was classified as a special revenue fund in 2020.* The significant reduction in 2020 was due in large part to COVID-19.

Description of Major General Governmental Expenditures

Category – General Government – Administration, legal and finance make up the majority of this category. The 2021 budget increases are primarily due to re-categorizing the new 2020 custodian positions and an increase in the taxi service expenditures (offset mostly by revenues).

Category – Public Safety – The city’s police and fire departments have notable increases forecasted for 2022 due to wage and benefits increases. Expenditures can vary year-to-year due to vacancies, retirements, overtime requirements, etc.

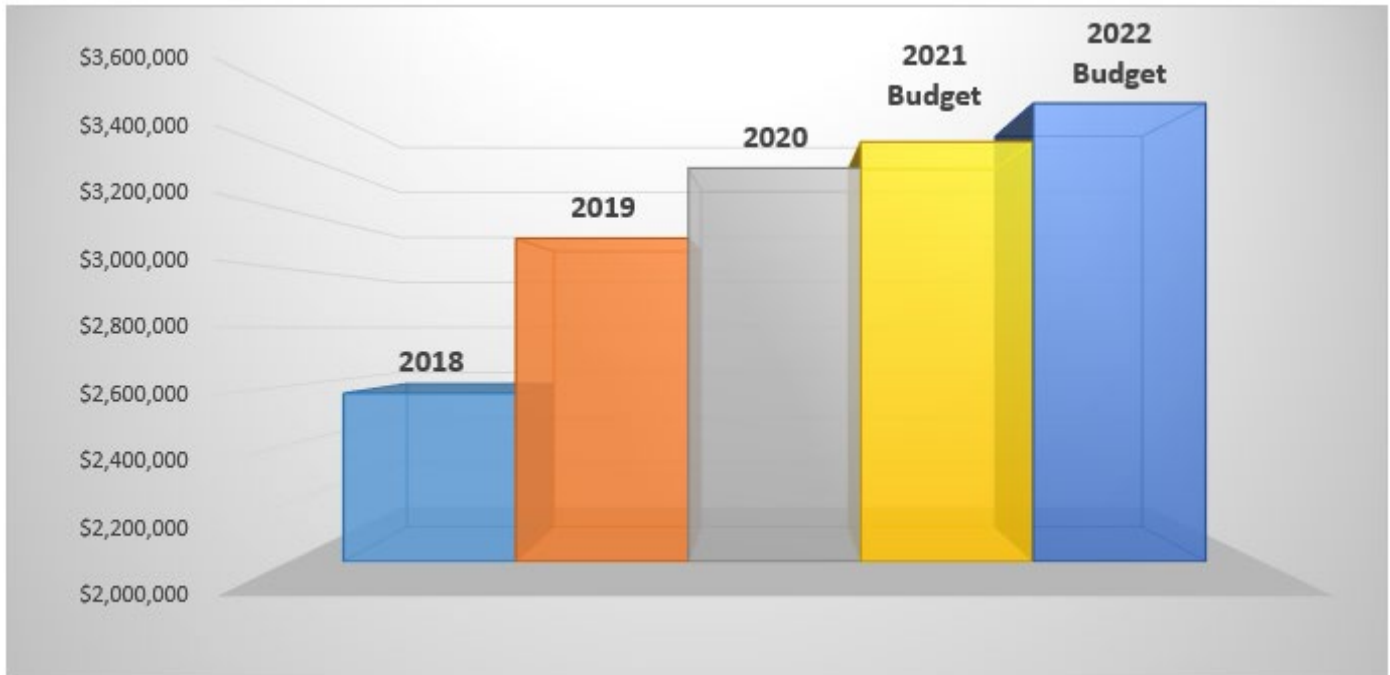

Category – Public Works – Maintenance of city infrastructure has seen increases in cost of service over the past four years. This category includes engineering, street maintenance, street lighting, and snow removal as its major components. The decrease beginning in 2020 is the result of classifying city’s garbage collection and recycling activities as a special revenue fund effective January 1, 2020.

Category – Human Services, Culture, Recreation and Leisure Activities – The city offers robust recreation and senior center programs throughout the year. The city’s commitment to retaining these services is evidenced by the steady growth in the annual costs appropriated to these services and additional staffing in both 2021 and 2022.

Category – Debt Service – The city has been involved in many community enhancing projects including park improvements, street reconstructions and building projects. With these types of projects ongoing, the city has experienced an increase in debt service. The city has policies related to debt that can be found on the city’s website.

Category – Other General Fund Transfers – This category consists of transfers out to the following funds:

Opera House Transfer from General Fund

The Opera House has been significantly impacted by COVID-19, but has received over \$460,000 in Federal relief spanning 2020 and 2021.

Library

The Library has built up substantial reserves as a result of COVID-19 and will begin spending them down in 2022.

Capital Outlay and Equipment Replacement

The city has continued to fund its capital outlay and sinking funds at a consistent amount to reduce the amount of borrowing required on an annual basis.

Note A - Variances between the 2022 budget and the public hearing notice mainly relate to different category classifications between the budget amounts presented here and the amounts presented in the Public Hearing Notice. Minor changes were made by the Committee of the Whole following the first meeting on October 14, 2021, which explain the \$30 variance in the bottom line.
