Subject: Stoughton Utilities Proposed 2021 Budget and Five Year (2021 – 2025) Capital Improvement Projects (CIP) Plan.

We have completed efforts utilizing system plans, projections and engineering studies, and 2019 financial forecasts to develop our Proposed 2020 Budget and Five-Year CIP Plan. The following items are meant to illustrate changes in the financial summary from prior periods:

- At this point in time, we incorporated significant increases to the Utilities wages in anticipation of implementing a staffing and realignment strategy in 2021.
- The following inflationary amounts were used where appropriate:
 - Electric O&M – 2.50%
 - Electric PILOT – (0.25%)
 - Water O&M – 1.50%
 - Water PILOT – (0.25%)
 - Wastewater O&M – 1.25%
- The proposed 2021 budget reflects a proposed 3% increase in water rates with an estimated implementation date of April 1, 2021.
 - The adjustment will result in an increase of approximately \$.75 to the average water residential customer's monthly bill assuming 3,000 gallons per month.
- The proposed 2021 budget does not reflect any increases in wastewater rates.
- The proposed 2021 budget does not reflect any increase in electric rates.
- The Water Utility is anticipating the replacement of 700+ lead water services in 2021 at a potential cost to rate payers of \$3.1 million. The scope of this project is still being determined and is considered fluid at this point in time.

The Stoughton Utilities Proposed 2021 Budget and Five-Year CIP is provided for approval and recommendation to the City of Stoughton Common Council. It will be presented at an October 22, 2020 Common Council workshop, and is scheduled for Common Council adoption on November 10, 2020.
