Pricing seems about right - even more affordable than expected (to me a Realtor knowing construction costs). I'd also expect many longtime Stoughton residents would comment that prices are very high, but that being due to their lack of knowledge of the market.

This is great news! I have MANY condo buyers for Madison, but as you know there is VERY little available and virtually no new projects. I have not filled out the rest of this form as I am not sure I could entince my buyers to look at Stoughton, instead of Madison, but the setting & design look lovely so I would definitely let them know about this project.

I didn't see what the pricing was.

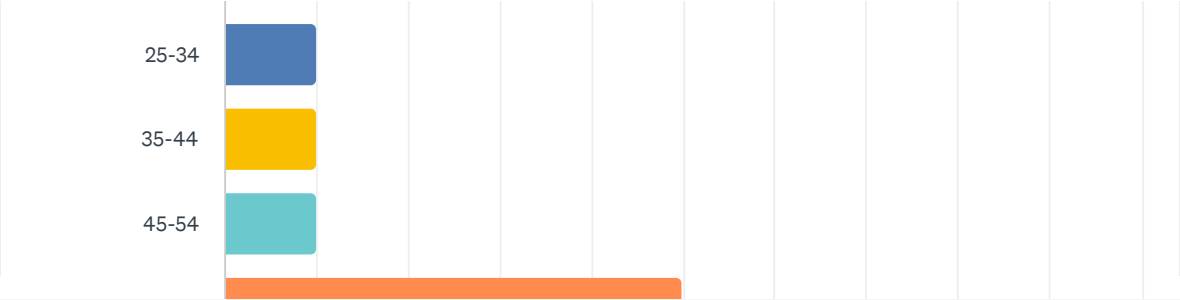

I like the concept and hope you can make it happen. We need more inventory in our surrounding communities.

I only saw the survey not pricing

Unfortunately my buyers are not looking almost 2 years out. :\
