Stacey to provide the COA letter to the applicant which will allow a permit to be issued.

Nancy Hagen joined the meeting to explain the idea behind creation of the time capsule. There is a time capsule that was created back when the old City Hall at 381 E. Main Street was constructed. Nancy is part of the 175 Year Committee where something is being planned each month in 2022 with the time capsule being the in December during the Victorian Holiday Celebration weekend.

Nancy Hagen will report back to the 175 Year Committee.

- 5. Review 2021 Mini-grant applications.**  
Hedstrom suggested creating scoring criteria in evaluating applications going forward.

Veregin stated the Commission will evaluate the scope of each project and then go back to decide on the amount of grant funding.

The Commission reviewed each application as follows:

1. 620 S. Prairie Street – The proposed project is for front porch repairs. The center porch railing has been removed from the application by the applicant. COA provided and approved.

Approximate cost of project = \$7,450.00 after subtracting the center rail cost.

Total grant amount requested has been reduced to 50% of the adjusted cost or \$3,725.00

2. 404 S. Fifth Street – The proposed project is for replacement of 2<sup>nd</sup> story storm windows and painting exterior gables and trim. COA still needed.

Total approximate cost of project = \$12,000

Total grant amount requested = \$2,500

3. 400 Garfield Street – The proposed project is for repair and painting of exterior wood and painting of downspouts. COA previously approved.

Total approximate cost of project = \$6,370

Total grant amount requested = \$3000

4. 1009 Summit Avenue – The proposed project is for repair/replace gutter and install one set of snow hooks. COA still needed.

6. 174 E. Main Street – The proposed project is for repairing and preservation of exterior side wall, stairway replacement and rear service door replacement. COA may have been previously approved.

Total approximate cost of project = \$5,925

Total grant amount requested = \$2,962

7. 255 E. Main Street – The proposed project is for interior dressing room repair due to roof leak. Project is not eligible since it is interior work therefore no COA required.

Total approximate cost of project = \$3000

Total grant amount requested has been reduced to 50% of the approximate cost or \$1,500

8. 327 E. Washington Street – The proposed project is for replacement of balcony supports. COA still needed.

Total approximate cost of project = \$6000

Total grant amount requested = \$2,000

The Commission discussed each project including how to divide up the \$9,000 in grant funding.

Cook suggested fully funding the applications for properties that have never been funded.

The Commission decided to eliminate the applications from 255 E. Main Street and 174 E. Main Street. (One project was for interior work and not eligible; the other project was for work to the side and rear of the property, and because of great demand for grants, and other projects were for primary facades and the work to primary facades was prioritized for funding)

Motion by **Cook** to award 1009 Summit Avenue a grant amount of \$700.00 and the following grant amounts of \$1,660.00 each: 620 S. Prairie Street; 404 S. Fifth Street; 400 Garfield Street; 160 E. Main Street; and 327 E. Washington Street, 2<sup>nd</sup> by **Hedstrom**. Motion carried 4 – 0 (Ligocki and Hubing abstained)
