Springman also noted it is still unclear as what exactly Phase I is going to encompass.

Discussion followed in relation to what the next steps should be and how to best address the RDA's existing concerns.

Springman will provide the RDA members with the original data request sent to Brink in March for additional input/questions. This will then be forwarded to Brink to discuss with the RDA at a tentative August 5<sup>th</sup> special meeting.

b. Discussion and possible action regarding Ayers report

Due to the current circumstances and recent setbacks resulting from the ongoing pandemic, the RDA has decided to table this topic for the time being. One option is for Ayers to present the information to all the relevant stakeholders at a future date when things begin to normalize. The other option is for Ayers to provide the RDA with a recorded presentation to put on the City and RDA websites. Trow will work with Denise Duranczyk to discuss what options may be available and determine who will reach out to Ayers.

c. Discussion and possible action regarding the draft Redevelopment Plan, potential approaches towards promoting the redevelopment of the area and potential public improvements that may be needed
