Motion by Chenoweth to accept the report drafted by UW Milwaukee and presented at this evening's meeting, second by Springman. Motion passed 7-0.

## **Old Business**

### **a. Discussion and possible action regarding RDA informational flyer**

Springman presented the updated the RDA informational flyer.

Reeves recommended calling this something other than a flyer due to the amount of information provided in the document. He stated this document is much more than a flyer and he does not want to see it discounted as such.

Hirsch recommended adding a mission statement to the document. Manley objected to this suggestion and he does not see the value in mission statements in general. Doom agreed with Manley on this particular topic.

### **b. Discussion and possible action regarding public outreach related to the Riverfront Project**

This was a recommendation from City Council; however, Reeves feels presenting information to the public at this point is premature. Hirsch concurred and feels a more appropriate time to update the public is after the initial agreements between the RDA and the potential developer have been completed. Doom and Manley agreed that it is too early to conduct any real public outreach and that this should be done later in the process.

Attorney Dregne stated there are requirements for a public hearing related to the GDP and is wondering if the timing of public input will be prior to this meeting or if the public hearing will be considered the public input currently being discussed. Director Scheel informed the RDA the GDP will need to be approved by the City Council in early May, which leaves a small window of time to obtain public input.

Springman suggested that Reeves and Mayor Swadley request the Stoughton Courier Hub to write an article about the status of the development and the tentative timeline going forward.

Reeves agreed with Springman's suggestion and this will be the first step. As the development progresses, the RDA will decide when and if, public input is warranted.

### **c. Update on Finance Committee and City Council presentations related to the Riverfront Project**

Reeves summarized the discussion held at the Finance Committee yesterday evening as well as the progress made towards the agreements since the last RDA meeting. Attorney Dregne provided additional information regarding the possible environmental remediation work and potential funding mechanisms. At this point, the RDA chose to move onto New Business Item d.

### **d. \*\*\* Discussion and possible action regarding the structure and terms of the land purchase agreement, future developer and other relevant agreement(s) related to the Riverfront Site \*\*\***
